

PRESS RELEASE (December 13th, 2006)

CFA Wall Maps.doc

CFA Wall Maps

To support the successful adoption of the new Spatial Vision VicMap books, the Country Fire Authority (CFA), have commissioned Spatial Vision to produce a range of map products including CFA Region based wall maps and CFA Group map products.

The wall and group maps will be produced for five CFA regions covered by the Central and North West editions of the Spatial Vision VicMap book. These regions include Bendigo, Mildura, Kerang, Geelong and Ballarat. The wall maps to be produced are a combination of both wall-mounted wall maps with metal/wood backing and laminated only maps

The regional wall maps will have a map scale consistent with the scale of the map pages contained in the new Spatial Vision VicMap map books, which is either 1:50K for the Central region of the state including outer metro Melbourne (and includes the Geelong and Ballarat CFA Regions) and 1:100K for balance of the State.

In addition to information contained in the Spatial Vision VicMap map books, the wall maps and group maps will also display: compass roses for nominated fire towers; CFA regional boundaries; and total fire ban boundaries.

Wall maps will utilise suitable map strips that can be wall mounted and laminated, while CFA group maps will be based on standard map sizes of A0 or A1.

The wall map and group map products will be prepared early in the 2006/2007 fire season and will be used in conjunction with operational use of the new Spatial Vision VicMap books within the CFA.

Who is Spatial Vision?

Spatial Vision works at the leading edge of geospatial and information technology. We develop innovative solutions that integrate geographic information with business applications. We offer unparalleled expertise in the delivery of web-based systems. We produce high quality mapping; supply, manage or audit a wide range of spatial information and undertake sophisticated spatial analysis. We supply and customise GIS applications and provide strategic, actionable consulting advice.

Established in early 1999, Spatial Vision has grown into one of Australia's leading Spatial Information (SI) companies with significant experience in delivering tailored solutions for organisations throughout Australia.

Our Business Partners

In 2002 Spatial Vision was awarded the ESRI New Business Partner of the Year Award.
