

PRESS RELEASE (December 4th, 2007)

Emergeo EMA Instalation

Emergency Management Australia provides national leadership in the development of measures to reduce the risk and manage the consequence of disasters. A key service provided by EMA is developing the capacity of communities to mitigate, manage and recover from disasters. To support this role, the EMA Institute (EMAI) based in Mt Macedon, Victoria delivers national training in a range of emergency management areas.

EMAI has purchased EmerGeo to demonstrate the significant role that GIS can play in supporting emergency management especially in Emergency Coordination Centres (ECC). Apart from supplying the EmerGeo software, Spatial Vision assisted EMAI personnel with installation and configuration to meet their training needs. EMAI trainers will use EmerGeo to enhance a range of disaster scenarios to be used in training sessions for ECC personnel drawn from across the country.

EMAI selected EmerGeo due to its inherent ease of use by ECC personnel, extensive in-built emergency response tools, cost effectiveness and ability to be readily configured for a wide variety of training scenarios.

The adoption of EmerGeo by EMA for this training role reflects the growing recognition by government and private enterprises around the globe of EmerGeo's unique role as the mapping solution of choice for emergency management.

Who is Spatial Vision?

Spatial Vision works at the leading edge of geospatial and information technology. We develop innovative solutions that integrate geographic information with business applications. We offer unparalleled expertise in the delivery of web-based systems. We produce high quality mapping; supply, manage or audit a wide range of spatial information and undertake sophisticated spatial analysis. We supply and customise GIS applications and provide strategic, actionable consulting advice.

Established in early 1999, Spatial Vision has grown into one of Australia's leading Spatial Information (SI) companies with significant experience in delivering tailored solutions for organisations throughout Australia.

Our Business Partners

In 2002 Spatial Vision was awarded the ESRI New Business Partner of the Year Award.
