

## PRESS RELEASE (January 11<sup>th</sup>, 2006)

Stonnington\_Heritage\_Mapping\_PR.doc

# Heritage Mapping for City of Stonnington

Spatial Vision is working with heritage consultants, Context Pty Ltd, to publish a series of maps illustrating the historic development of the City of Stonnington in Victoria. Context have been contracted to prepare a thematic environmental history for the City. As part of the study report, a series of themes were identified, including the natural environment, land development, transport infrastructure and the making of a city. Spatial Vision has assisted Context to map the themes to highlight changes over the last 200 years.

To better visualise this important historical information, Spatial Vision has developed an interactive CD format so the user can select eras over the last 200 years and themes to overlay. Context have delivered their final report to the City in the interactive CD format.

For further information about the mapping and interactive CDs, please contact:

## Who is Spatial Vision?

Spatial Vision works at the leading edge of geospatial and information technology. We develop innovative solutions that integrate geographic information with business applications. We offer unparalleled expertise in the delivery of web-based systems. We produce high quality mapping; supply, manage or audit a wide range of spatial information and undertake sophisticated spatial analysis. We supply and customise GIS applications and provide strategic, actionable consulting advice.

Established in early 1999, Spatial Vision has grown into one of Australia's leading Spatial Information (SI) companies with significant experience in delivering tailored solutions for organisations throughout Australia.

### Our Business Partners

In 2002 Spatial Vision was awarded the ESRI New Business Partner of the Year Award.
